

Description

Proteq LW is a tough, lightweight polypropylene protective board designed for use with Xeric or similar waterproofing membranes. It is ideally suited for use where irregular surfaces or change of levels occur. It is easily cut or curved to provide protection and can be bonded to the waterproofing membrane using Xeric double-sided bitumen tape.

Advantages:

- Waterproof.
- Easy to cut, curve or crease
- Rot proof
- Non-toxic
- Resistant to salts and sulphates
- Economical

Application:

- Horizontal and vertical use.
- General purpose protection.

Technical Data:

| | |
|---|------------------------|
| Colour | Black |
| Compressive strength (tested to BS 4686) | 340kN/m ² |
| Thickness | 2.5mm |
| Weight | 0.3kg/m ² |
| Puncture resistance | 9.1 joules |
| Vical softening point: | 145°C |
| U Value | 3.47W/m ² k |

Supply

2.44m x 1.23m sheets.
Cut sizes available to order.

Storage

Store flat, avoiding excessive heat.

Health and Safety

There are no known health hazards associated with Proteq LW in normal use. Refer to the Material Safety Data Sheet.
