Sub-Contractor:	Hague Construction Ltd
Address:	Sevenoaks, Kent

The enquiry

Corden EPS were approached by Curtins to provide a solution to the ground gas protection requirements at Sevenoaks Primary School.

Corden EPS along with Acrefield Developments attended 2 design meetings at Bowmer and Kirkland HQ to propose a solution.

Curtins Ltd had advised Corden EPS that due to the nature of the building, 3.5 points were required for this site in accordance with BS8485-2015.

The solution.

- Corden EPS Total Gas Barrier – tested to ISO 15105:01 to meet the requirements of British Standards. Installation by experienced and qualified personnel – Acrefield Developments Ltd.
Independent validation – MTS Ltd – **2 points.**
- Structural barrier. Raft type slab – **1.5 points.**
